Goals of the NEADCP

- To provide high quality training, technical assistance, information sharing mechanisms and other support to the drug treatment courts in the six New England states, tailored to the needs and issues they are addressing.

- To promote coordination and sharing of information and resources, as feasible, in the development of policies and practices relating to the drug court programs in New England.

- To provide a central repository of resources relating to the development, operation and administration of drug treatment courts in New England which highlight regional and state-specific issues not readily targeted in national resources and which New England programs can utilize and share.

- To develop a range of collaborative relationships, at multiple levels, with federal, state and local governmental and nongovernmental organizations (NGOs) to promote potential partnerships to enhance NEADCP’s training, technical assistance and outreach and to increase its visibility.
